Regulatory Notices

FCC Notice

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment.

Class A

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

CE Notice

This is a Class A product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.

RoHS Compliance

The Restriction of Hazardous Substances (RoHS) Directive is to forbid the use of hazardous materials of production. To meet the RoHS Directive requirements, this product is made to be RoHS compliant.

WEEE Compliance

This product is subject to the Waste Electrical and Electronic Equipment (WEEE) Directive and made compliant with the WEEE requirements.

1. Introduction

The GV-Joystick facilitates the PTZ camera control such as pan, tilt, zoom and focus. It can work on the GV-System independently, and its compatibility with GV-Keyboard empowers the operation of GV-System as well.

1.1 Packing List

- GV-Joystick x 1
- USB Type A to Type B Cable x 1
- RJ-45 Cable x 1
- GV-Joystick User's Manual x 1

1.2 System Requirements

- Windows 2000, XP or Vista
- GV-System V8.2 or later

1.3 Important Notice

- GV-Joystick can only work on the GV-Keyboard of firmware V2.0.0.1.
- When you combine the use of GV-Joystick and GV-Keyboard, the GV-Joystick MUST be connected to the GV-Keyboard. Both GV-Joystick and GV-Keyboard cannot be connected to the GV-System separately.

2. Overview

2.1 Front View

Figure 1

No	Name	Function
1	Power LED	Indicates power activity.
2	Focus In	Adjusts focus near.
3	Focus Out	Adjusts focus far.
4	Handle	Controls PTZ movements (pan and tilt), zooms in and zooms out.
5	Previous Camera	Controls the previous camera.
6	Next Camera	Controls the next camera.

GV-Joystick Handle

No	Handle Movement	Function
1	Right	Pans the PTZ right
2	Left	Pans the PTZ left
3	Up	Tilts the PTZ up
4	Down	Tilts the PTZ down
5	Turn the handle right	Zooms in
6	Turn the handle left	Zooms out

2.2 Rear View

Figure 2

No	Name	Function
1	USB to DVR port	Connects to computer
2	To GV-Keyboard port	Connects to GV-Keyboard

3. Installation

There are two ways to connect GV-Joystick to GV-System by:

1. USB Port, or
2. the connection through GV-Keyboard.

3.1 Connecting to GV-System

The GV-Joystick is an independent device that can work with the GV-System directly. To connect the GV-Joystick to the GV-System, use the supplied USB cable.

3.2 Connecting to GV-Keyboard

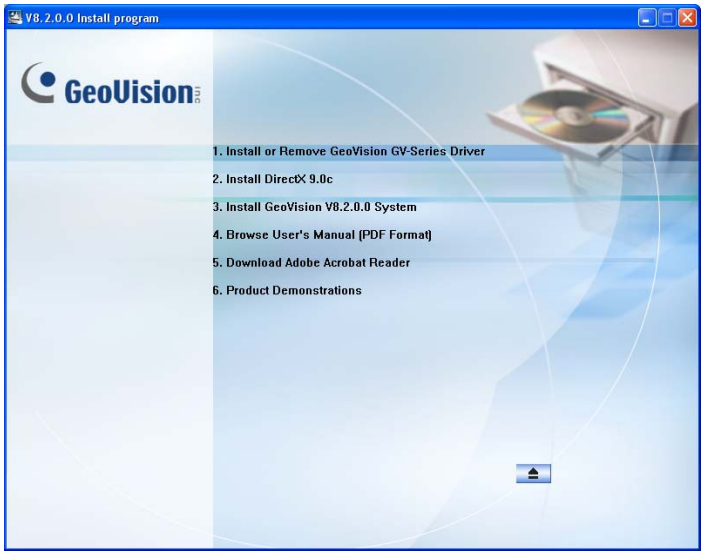
To work on the GV-System together with the GV-Keyboard, the GV-Joystick MUST be connected to the GV-Keyboard. To connect the GV-Joystick to the GV-Keyboard, use the supplied RS-45 cable.

3.3 USB Driver Installation

No matter which way you use to connect the GV-Joystick to the GV-System, it is required to install the USB driver before use.

After hardware installation, the Found New Hardware Wizard will automatically detect the device. Ignore the Wizard and follow these steps to install the driver:

1. Insert the Software CD. It will run automatically and a window pops up.



V8.2.0.0 Install program
GeoVision
1. Install or Remove GeoVision GV-Series Driver
2. Install DirectX 9.0c
3. Install GeoVision V8.2.0.0 System
4. Browse User's Manual (PDF Format)
5. Download Adobe Acrobat Reader
6. Product Demonstrations

Figure 3

2. Select **Install or Remove GV-Series Driver**, and then click **Install Geovision USB Devices Driver**. This dialog box appears.

Figure 4

3. Click **Install** to install the driver. When the installation is complete, this message will appear: *Install done!*
4. Click **Exit** to close the dialog box.
5. To verify that the driver is installed correctly, go to Windows Device Manager. In the Ports (COM & LPT) field, you should see the entry for Prolific USB-to-Serial Bridge.

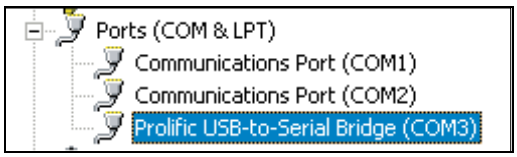


*Figure **5***

Note: Remember the COM port showing in the Prolific USB-to Serial Bridge entry. It indicates the port number that the GV-Joystick is using.

4. GV-Joystick Application

When using the GV-Joystick to control the PTZ camera, you need to runt the following in the background.

1. Run **mcamctrl.exe** from the GV-System folder.

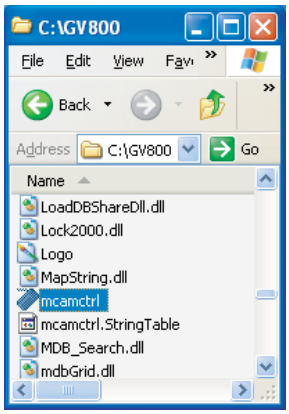

Figure 6

2. The Keyboard & Joystick controller dialog box appears.

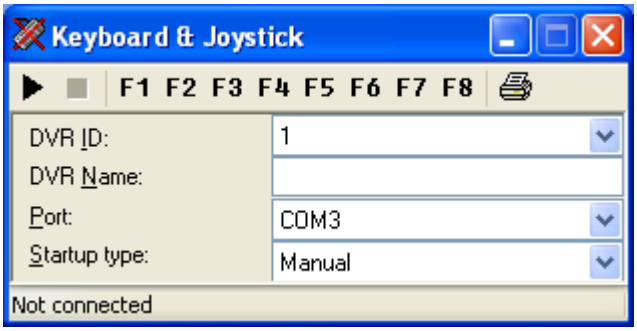

Figure 7

3. Leave both DVR ID and DVR Name fields blank.
4. In the Port field, select the port connecting to the GV-Joystick. Find out the port number the GV-Joystick is using in the Prolific USB to Serial Bridge entry. See *3.2 USB Driver Installation*.
5. In the Startup Type field, select **Manual** or **Automatic** to run Keyboard & Joystick controller at next startup.
6. Click the **Play** button ► to start the service. If you want to stop the service, click the **Stop** button ■.

Note:

1. If you connect the GV-Joystick to the GV-Keyboard, assign the port given to the connected GV-Keyboard when running the Keyboard & Joystick controller.
2. The buttons **F1** to **F8** and **Print** on the Keyboard & Joystick controller toolbar are only available when the GV-Keyboard is in use.
3. To add a PTZ camera to the GV-System, click the **Configure** button, point to **General Setting** and select **System Configure**. Then check **PTZ Device Setup** to enable the settings. For details, see "PTZ Control Panel" in *Surveillance System User's Manual* on Surveillance System Software CD.

5. Controlling Multiple PTZ Cameras

The GV-Joystick allows you to control more than one PTZ camera at a time. For this, you need to assign the PTZ cameras to their corresponding camera channels on the GV-System first.

1. Click the **Configure** button, point to **Accessories** and select **Camera Mapping PTZ**. This dialog box appears.

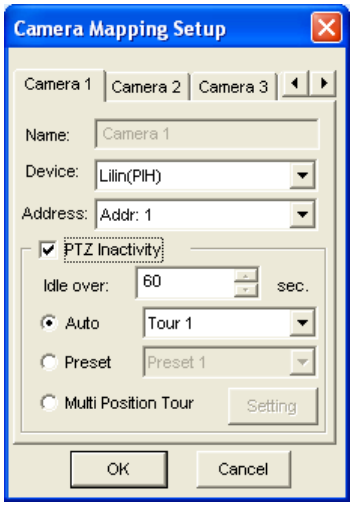

Figure 8

2. Use the camera tabs to select a camera channel.
3. To map a PTZ camera to the selected camera channel, use the **Device** drop-down list.

4. If you have two identical PTZ cameras set in the system, you may sue the **Address** drop-down list to choose the correct address.
5. Click **OK** to apply the settings.
6. To control multiple PTZ cameras using the GV-Joystick, click the **Previous Camera** and **Next Camera** buttons on the joystick.

For details on mapping the PTZ cameras, see “Mapping PTZ Cameras” in *Surveillance System User’s Manual* on Surveillance System Software CD.

6. Specifications

Communication	USB 2.0	Connects to PC
	RJ-45	Connects to GV-Keyboard
	DC IN	DC 5V 50mA
Power	Operation temperature	0 ~ 50˚C / 32 ~ 122°F
Environmental Conditions	Humidity	5%~95% (non-condensing)
Dimensions	160 (W) x 90 (H) x 118 (D) mm / 6.30 x 3.54 x 4.65 in
